

These items are to be used with the SureStrike laser dry fire training system.

- 1 Short safety pipe:** SureStrike short safety pipe is made to fit all handguns with barrels from 2.8" to 4.1" inches. Follow instructions in your SureStrike kit user guide (steps 5 and 6) to install.
- 2 Long safety pipe:** SureStrike long safety pipe is made to fit all handguns with barrels from 3.5" to 4.8" inches. Follow instructions in your SureStrike kit user guide (steps 5 and 6) to install.
- 3 Battery pack (set of 3):** Replacement battery pack for all types of back caps. Follow instructions in your SureStrike kit user guide (step 2) to install.
- 4 Safety nut:** The safety nut secures the safety pipe to ensure safety and accuracy; indicates that a SureStrike is in the weapon. Follow instructions in your SureStrike kit user guide (step 7) to install.
- 5 Safety pipe extension:** Connect to the safety pipe to add an additional 1" length. More than one can be added. Follow instructions in your SureStrike kit user guide (step 5) to install.
- 6 Reflective targets (set of 6):** Six reflective targets based on classic law enforcement standards .
