

LASER AMMO™
TRAINING TECHNOLOGIES

Glock Reset Trigger

Convert your single action GLOCK pistol to full double action with the GLOCK Reset Trigger.

When installed along with the SureStrike™ system, your GLOCK becomes the training tool you've needed to maintain top shooting skills without making a spendy trip to the range.

Unlike other reset trigger kits on the market, **the pull is more realistic and actually clicks like a real GLOCK trigger as it activates the SureStrike™ laser cartridge.**

The GLOCK Reset Trigger System installs into your gun in less than 15 minutes and includes a specially designed striker, modified trigger bar and trigger housing that gives you a consistent and realistic trigger pull. The result allows for rapid shot after shot practice that projects a laser dot to your target every time, no matter how fast you squeeze the trigger.

Available for:

Gen4 - 9mm / .40S&W

Gen 3 - 9mm / .40S&W / 357 / 45GAP,

Gen 3 (non SF model) - 10mm / 45ACP

SF models - 10mm / 45ACP

MSRP: \$199.00
