TRAINING TECHNOLOGIES

## SPIDER Adapter Full-Blowback Airsoft Pistol Training

Don't just train like a pro – train like *the* pros. The SPIDER adapter brings the rare combination of affordability and government-agency-level firearm training in one package, for the full-blowback, dry-fire training experience.

It's the closest you can get to the authentic look, feel, trigger pull and blowback of your actual weapon. The SPIDER brings next-level, real-steel training.

### The SPIDER is a crucial addition to your dry-fire training regimen – here's why:

- Converts airsoft or blanks-conversion blowback pistols into full-blowback training tools
- Utilizes your pistol's Picattiny rails for easy conversion
- Houses the Laser Ammo SureStrike™ vibration cartridge for optimum simulation
- Coordinates with simulators, training software, electronic targets and tactical vests

### The SPIDER is the small but powerful training attachment that will keep you on your shooting game all year long.

#### About Laser Ammo

Laser Ammo Ltd., develops and sells firearms training products for civilian, law enforcement and military markets. Owned and operated by former Israeli and U.S. military combat veterans, Laser Ammo is dedicated to providing serious training for serious professionals and beginners alike. The Laser Ammo family of products allows operators to utilize their specific weapons platforms, ranging from semi-automatic pistols or rifles to airsoft or recoil-conversion systems, for advanced dry-fire training.
