

SureStrike™ Caliber Adapter

The SureStrike™ is Laser Ammo's brand name for our family of high-end laser training cartridges, aimed to assist any level of shooter with at home dry fire training.

One of the unique characteristics of the SureStrike™ 9mm cartridge is its ability to adapt to many different calibers, allowing the shooter to use only one high quality laser with many different firearms, thus saving the user money and the hassle of purchasing many different lasers.

The SureStrike™ adapters are offered in 4 different variants:

Action Back Caps: By replacing the action back cap of the 9mm cartridge, the shooter can convert their 9mm to 38SP and 223 / .556 for AR15 using the same red or IR laser module. The user can even change the functionality of the laser cartridge by changing the action back caps to use as a boresight, or to become a vibration activated laser.

Adapter Rings: By adding one of the adapter rings, and using the UhrSecure safety system, the shooter can easily convert their 9mm SureStrike™ cartridge to become a: 40SW, 45ACP, 357sig, 45GAP or 10mm.

Adapter capsules: Our unique adapter capsules will convert the 9mm SureStrike™ to 12G or 20G for shotguns, allowing you to train for your next hunt or trap & skeet shoot. Our patented adapter cap allows the shooter to decide if they want the extractor of the shotgun to extract the laser with every shot, or to miss the extractor for continuous shots.

Aside from the shotgun adapters, Laser Ammo offer many other rifle capsule adapters that includes: 308, 30-06, 6.5X55mm Swedish, 8X57mm is / Mauser and 300 Win.

For military and law enforcement Laser Ammo offers a 40mm and 37mm grenade launcher adapter capsule to practice with M203 for many different applications including riots, launcher alignment, and simulator training.

Adapter Sleeves: By placing the 9mm SureStrike™ into one of the adapter sleeves, the shooter can easily convert his cartridge to 45 long colt or 44 magnum for revolver training.

Caliber adapters can be purchased as a stand-alone adapter, as part of a kit that includes UhrSecure Safety System: safety pipe, extension, and nut, or as part of a laser kit or hunting pack.
